Certification Preparation

NHA's study system is here to help your employees on their path to getting certified. Our study guides and practice tests are aligned to NHA test plans to ensure candidates concentrate on the most relevant topics.*

STUDY GUIDE

- > Follows the sequence of the NHA exam blueprint and contains chapter-specific learning objectives that help employees focus on specific areas
- > Provides instructional lesson content with video and audio narrative to engage different types of learners
- > Reinforces key concepts through practice drills and case study video

PRACTICE TEST

- > Allows your employees to test their knowledge and practice for the national exam
- > Aligns to the NHA exam blueprint and works in conjunction with the NHA Study Guide
- > Accessible up to five times from any Internet connection with each purchase
- > Saves time for your employees with Focused Review® remediation, which based on assessment results, directs employees to content they still need to master

*Based on a recent survey of NHA certified professionals, 8 out of 10 NHA certificate holders reported that certification qualified them for more job opportunities.***

Certification

As an employer, we understand you are looking to employ the best. Certification represents a nationally-recognized measure of competency and signifies a person's level of knowledge and expertise.

OFFERING NHA CERTIFICATION CAN:

- > Help mitigate risk and improve patient safety
- > Provide external validation of practitioner competencies needed to perform effectively and efficiently
- > Improve employee satisfaction through professional development
- > Potentially increase workflow efficiencies and better patient outcomes

Better Outcomes

NHA's proven exam preparation and certification exams combined with appropriate education and training can lead to:

BETTER PROFESSIONALS

- > Validates competency as highly qualified, well trained allied health practitioners

BETTER HEALTHCARE

- > Demonstrates a commitment to patient safety

BETTER RESULTS

- > Improves the standard of care for your organization

Stacked Credentials

It is no surprise that training and credentialing your employees across many disciplines can help your team achieve higher levels of proficiency to perform multiple tasks and potentially improve practice operations and workflow.
